SUMMARY

Results-driven React Native Developer with 3+ years of experience building scalable cross-platform mobile applications across healthcare, retail, HRTech, and creator economy domains. Strong expertise in React Native architecture, Redux ecosystem, mobile performance optimization, and API integrations. Proven ability to deliver production-ready applications with modern UI/UX, real-time workflows, and scalable SaaS solutions. Experienced collaborating with cross-functional teams and delivering high-quality mobile products for global clients.

TECHNICAL SKILLS

Mobile Development: React Native, TypeScript, JavaScript
Frontend: React Hooks, Redux, Redux Toolkit, Redux Thunk, Redux Saga
Backend & Cloud: AWS, REST APIs, Firebase
Programming: Python, C/C++
Tools: Git, GitHub, SourceTree, Android Studio, Xcode, VS Code, Flipper, Trello
Other: HTML, CSS, NumPy, Pandas

PROFESSIONAL EXPERIENCE

Way to React Technologies 2023 – Present
React Native Developer Ahmedabad, India

- Developed and maintained scalable cross-platform mobile applications using React Native and TypeScript for healthcare, retail, and enterprise clients.
- Implemented modern state management solutions using Redux Toolkit, Redux Saga, and React Hooks to improve application scalability and maintainability.
- Collaborated with backend and design teams to integrate APIs, optimize mobile performance, and deliver seamless user experiences across Android and iOS platforms.
- Built reusable components and modular architectures that accelerated feature delivery and improved development efficiency across projects.
- Worked on real-time workflows, notifications, analytics dashboards, and healthcare-focused mobile solutions with secure data handling practices.

Simform Solutions Pvt Ltd 2023
React Native Developer Intern Ahmedabad, India

- Contributed to React Native application development by implementing UI screens, debugging issues, and integrating APIs.
- Worked closely with senior developers to understand scalable mobile architecture and production deployment workflows.
- Participated in Agile development cycles, code reviews, and collaborative feature development.

PROJECTS

POPProbe | React Native, SaaS Platform Ongoing

- Built enterprise retail execution mobile workflows for brands operating across 3+ continents.
- Developed scalable mobile modules for retail tracking, operational reporting, and field-force management.
- Improved usability for multiple store formats including traditional, pop-up, and modern retail environments.

Glip | Healthcare, React Native 2026

- Built a healthcare-focused medication tracking platform for weight-loss treatment cycle monitoring.
- Implemented advanced tracking workflows and dynamic visualization for treatment forecasting and user insights.
- Designed scalable architecture for real-time medication cycle management and predictive reminders.

AttLed | React Native, HRTech 2024-25

- Developed mobile features for employee management, attendance tracking, payroll, and branch organization.

- Implemented responsive UI and optimized workflows to improve operational efficiency for businesses.

Sandwych | Digital Healthcare Platform

2025

- Developed patient-centered healthcare workflows supporting care coordination and patient navigation.
- Integrated task tracking, reminders, and collaboration modules for physicians, nurses, and care teams.
- Enhanced healthcare process efficiency through real-time insights and mobile-first workflows.

Mita | Creator Economy Platform

Prototype

- Built investment tracking and analytics workflows for creators and brands using React Native.
- Developed interactive dashboards, dynamic charts, and profile analytics for financial trend visualization.

rn-MovieDB | React Native, Firebase

Personal Project

- Developed a cross-platform movie and TV discovery application using React Native.
- Integrated movie ratings, trailers, authentication workflows, and dynamic chat functionality using Firebase.
- Implemented responsive UI components and real-time user interaction features to enhance engagement.

rn-root | React Native Testing Platform

Personal Project

- Built a React Native testing application for validating custom modules, libraries, and mobile features across Android and iOS platforms.
- Used the platform to experiment with device compatibility, native integrations, and reusable mobile components.
- Improved debugging and testing workflows for multiple mobile development scenarios and edge cases.

CERTIFICATIONS

AWS Certified Cloud Practitioner

AWS

EDUCATION

Indus University

Bachelor of Technology in Computer Science Engineering

2019 – 2023

Ahmedabad, India
